

JOWI[®]

Mobile
Storage Systems

**How do YOU make
sure that your working
material is always
within easy reach?**

**Simply solutions.
With JOWI Mobile Racks
and Transport Racks,
your material flow
never stops flowing.**

**Everything always
exactly where you need it.
Everything always
exactly how you need it.**

JOWI Mobile Racks and Transport Racks are mobile intermediate storage solutions that ensure: the material you need is always within easy reach.

- Store both small and large shaped parts, material for varnishing, cupboard carcasses, rods, boards, frames etc. on one single rack.
- Remove material in any order, with easy access to every part.
- Push your stock around easily, whenever and wherever you need it.

**JOWI Mobile Racks and Transport Racks.
Keeping things going.**

A close-up photograph of a person's hand holding a light-colored wooden plank. The plank is being held in a rack system consisting of several vertical wooden posts and horizontal yellow bars. The background is a plain, light-colored wall.

Maximum productivity

- **Racks for clearly arranged and well organised manufacturing material**
- **Easy access to every part** in any order
- **Intermediate storage system**, mobile and compact: easy for one person to manoeuvre in tight spaces. Your material moves through the production process, exactly as the changing workstations require.

Tidy and secure

- Stacking surfaces covered with plastic to protect your material, tolerate varnish and oil
- Rack can be secured by lockable castors
- Space optimisation: separated storeys look after your material.

A person with their back to the camera, wearing a bright yellow short-sleeved shirt and tan cargo overalls, is adjusting a red scissor lift rack. The rack has multiple yellow shelves and is mounted on blue casters. The person's hands are on the red scissor mechanism, and the rack is partially extended. The background is a plain, light grey wall.

Simple and flexible

- **Adjustable storey height** – simple system with hexagon socket set screws.
- **Fully adjustable rack length** in scissor model designs – quick and easy to adjust.
- **Stackable.** Compact. Ingenious.

What professionals say

Transport is always a waste of time but is an unavoidable necessity – which is why it is an excellent starting point for increasing efficiency.

Many of my customers have enjoyed significant time and cost savings as the direct result of JOWI racks.

*Martin Buck
buckOPTIMAL, Carpentry workshop organisation consultancy,
48149 Münster, Germany*

JOWI products aren't cheap, but they are a worthwhile investment, because in the end you save money in the production.

The JOWI Octopus D1 spray table is the best solution I ever saw and tried out. Well done.

*Alexandr Andricov
Woodman

We have been using the JOWI Mobile Racks for some time now.

I was impressed by how efficiently our order was managed and the mechanical quality of the Mobile Rack.

I received extremely courteous service from JOWI and wouldn't hesitate to recommend the company and their products.

Satisfied customer, Switzerland

Getting your material flowing.
